

## 1.85mm Female to 1.85mm Female Adapter

1.85mm female to 1.85mm female adapter part number SM3929 from Fairview Microwave is in-stock and ships same day. This Fairview 1.85mm to 1.85mm adapter has a female to female gender configuration. SM3929 1.85mm female to 1.85mm female adapter operates to 65 GHz. The 1.85mm connector mates mechanically with commercially available 2.4mm connectors. The Fairview Microwave RF adapter provides good VSWR of 1.33:1 maximum.

RF adapters can be used to enable connections between two connector types that would otherwise not mate. Certain RF adapter configurations can also be used to protect connectors on expensive equipment where the number of connect and disconnect cycles is high. An RF, microwave, or millimeter wave adapter is connected to the equipment and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Fairview Microwave also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
