

Electronic Elastic Strength Tester GT-C04-1

Application:

This Electronic Elastic Strength Tester designed for elasticity testing of all kinds of elastic materials such as socks, knitted underwear, woven fabric, spandex, spandex core, hammock and elastic cord.

Standards:

FZ/T 01034, FZ/T 01062, ASTM D4964, BS 4592

Feature

1. Powerful data search function, can search each group of statistical data and data & curve at any time directly.
2. Internal can setting multiple-unit test measuring parameter, suit for different sample test.
3. Clamp can auto locate.
4. Measuring can auto error correction.
5. Support online operation with specialist analysis system.

Key Specifications

Model	5	50
Range	50N	500N
Test Accuracy	≤0.2%F·S	
Stretch Speed	0.01~1000mm/min	
Max. Elongation	800mm	
Clamp Width	60mm	
Stroke Resolution	0.01mm	
Power Supply	AC220V 50/60HZ 200W	
Dimensions (W x D x H)	47x38x186 cm	
Weight	85kgs	

Accessories

Standard accessories	1pc	Manual Grips
	1pc	English Operation Software
	1pc	Cable Connect with PC
	1pc	Load cell
Optional accessories	Optional	Desk Top Computer
	Optional	Other Grips and Load Cell
