

Motor Brake Performance Testing Ramp GT-M27-1

Product Introduction

Application:

This Motor Brake Performance Tester is a longer 10 degree ramp, mainly used for the brake test of electric ride-on toys.

Standards:

EN 71-1

Dimension

External Dimensions:	
4000 * 1200 * 950 mm (L*W*H)	
Package Dimensions:	
4150 * 1350 * 1100 mm (L*W*H)	
Gross Weight:	
320 kg	
Net Weight:	
300 kg	

Key Specifications

Model	GT-M27-1
Ramp degree	10 ± 1 degree
Testing surface	Aluminium oxide P60
Dimensions (L x W x H)	400 x 120 x 95cm
Weight	300kg

Application Industry

All kinds of electric ride-on toys can be tested by the Motor brake performance Testing Ramp.
